

Certain documents or portions of documents related to this training may be exempt from disclosure under the California Public Records Act on one or more of the following grounds:

- a. They are records dealing with security and safety procedures that are exempt pursuant to Government Code Section 6254(f). (Northern California Police Practices Project v. Craig (1979) 90 Cal.App.3d 116, 121-122.);
- b. They are materials for which the City of San Rafael does not hold the copyright or have permission to publish.

Where exempt material can be reasonably segregated from nonexempt material in these records, the exempt material has been redacted and the nonexempt material is shown. Where it is not reasonably possible to segregate out the exempt material, the Department is withholding the entire document from disclosure.

Re: MEETING REGARDING SRT MUTUAL AID EQUIPMENT

Dave, per our conversation on 1/13/98, I am writing this memo so you can have a record of the equipment that Tony and Dan have purchased for the SRT van. This equipment is for all of us to use in a mutual aid call-out. After you left, we agreed to spend the remaining approximately \$17,000.00 on two more night vision goggles, and the video camera for entry use. The video camera is \$7,400.00, and the two night vision goggles will cost \$4,000.00.

Dan mentioned to me that the SO is currently having two dispatchers sent to "Tactical Dispatch school" so they will be ready to go with the van on a call-out. Tony said that they have already sent a dispatcher to that school, and both requested that we do the same, at least with one dispatcher. I told them that I would bring that request back to you and Mike.

The Lash System radio headsets that we have been patiently waiting for are supposed to arrive by 1/21/98. This has been a priority, since our current radio headsets have been slowly falling apart. It sounds like they are state of the art, so I think this will take care of most of our radio problems. Below, I have broken down what has already been spent and the approximate costs of each item. Tony and Dan seem to think that the Task Force Oversight Committee would like us to spend all the money as soon as possible. They both think that after we spend all the money, and if we can justify the need for additional equipment, the committee will give us additional funding.

\$75,000.00 from Task Force Oversight Committee

- | | | |
|----|---|-------------|
| 1) | Cutting bar----- | \$3,000.00 |
| 2) | Lash radio head sets----- | \$24,000.00 |
| 3) | One case of flash bangs for SRT Van----- | \$1,100.00 |
| 4) | Six night vision goggles----- | \$12,000.00 |
| 5) | Generator for SRT Van----- | \$1,300.00 |
| 6) | Sniper night vision----- | \$8,000.00 |
| 7) | Six handheld (Ar-15 mountable) night vision----- | \$8,000.00 |

Memorandum

Re: February SRT training.

Training is set for the last Saturday of the month, February 28, 1998. The time will be 0700-1700. Be at the P.D at 0700 dressed and ready to go by 0730. As of now, we are planning to shoot at Bullseye, so be dressed in your fatigues with all your gear. The firearm course will consist of handgun and assault rifles. Snipers do not need to bring their rifles.

The first half of the day will be at Bullseye, followed by a lunch break. The second half of the day will consist of a thorough bag dump, so please have your gear ready. I finally received all the new equipment that we ordered through Tuxall. Plan to spend some time on distributing it and placing on our belts, (bring your check books).

At one of our prior meetings, we assigned everyone equipment that you are responsible for. Be prepared to give an equipment update on your assigned equipment. After the equipment issues, we will finish the day with the P.T Test. Per our discussion at the last training, I am currently looking for a location to run the two-mile run. If you can think of a location where we can run it in one leg, instead of around the track, please let me know before Saturday.

Thanks, Rob.
